DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Stephenson et al. (US 4923037).

Stephenson et al. disclose a follower fall arrest device used with a fixed safety rope including a body 16 equipped with a securing system arranged to occupy either an active locking position in case of a fall or an inactive unlocking position enabling the user to progress along the rope in the ascending direction, or in the opposite direction when performing a controlled descent, said securing system comprising a support arm 34 articulated on a first spindle of the body, a roller 28 in the form of a cylindrical wheel mounted rotating free on a second spindle securedly attached to the support arm, and a centrifugal clutch mechanism 32 arranged between a drive member of the roller and the support arm so as to occupy a disengaged position or an engaged position, and attachment means 13 for connecting the body to a safety harness worn by the user, wherein the peripheral surface of the roller is equipped with a plurality of studs 28 arranged to cause rotation of the roller in the descending direction, and sliding on the rope in the

ascending direction, the body comprises a straight U-shaped channel 22 for passage of the rope, said channel having holes (see Fig. 1) for passage of the attachment means.

Re claim 2, see col. 3 lines 4-10.

Re claims 3-5, see Fig. 2.

Allowable Subject Matter

3. Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Deuer, Ostrobrod, Dodge, Jr., Swager, Healy, Stafford, Dale, and Blanchard disclose related devices.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benjamin A Pezzlo whose telephone number is (703) 306-4617. The examiner can normally be reached on M-F 9-5.
